

COFTEC.

Overview

Coftec is an Innovative Water Solutions Provider operating across both the municipal and industrial sectors in Ireland, UK and across International Markets. We are recruiting for a Senior Project Engineer/Project Manager with experience in the designing, constructing, and the commissioning of water and wastewater projects in Irish/UK Water sector to join the team based in Athenry, Co. Galway. This position will require the person to take full ownership and responsibility for ensuring the safe, efficient, timely execution of Coftec projects in accordance with deadlines, budgetary, programme and quality requirements.

Minimum Requirements:

- Third Level Qualification (Level 8 or higher), in an engineering or scientific discipline
- A member of a relevant Professional Institution
- 8+ Years relevant industry experience
- Chartered Engineer/Scientist preferable
- Irish/EU Driving Licence

The successful candidate will have;

1. Experience in the design and construction of a wide range of municipal and industrial water services projects throughout all stages in the project life cycle.
2. Experience in broad range of treatment technologies including but not limited to MBR, MBBR, SBR, UF, NF, RO, Filtration, Disinfection and Sludge Management.
3. Client facing experience; be comfortable leading projects and being the sole point of contact for the client.
4. Skills in promoting a culture of collaboration among all project stakeholders.
5. Experience in running a number of projects simultaneously.
6. Experience in leading teams and developing junior staff.
7. Experience in project finances and financial reporting.
8. Knowledge of various contract types (FIDIC, NEC, Public Works, Irish Water) and experience in Contract Administration.
9. Knowledge of safety and health regulations with regard to the design process and construction stage.
10. Ability to promote and implementation of company HSQE policies.
11. Capable of undertaking checks on design deliverables/outputs.
12. Responsibility for setting & maintaining standards for technical quality ensuring designs meet Client specification.

The successful candidate will have (Continued);

13. Responsibility for ensuring project financial performance.
14. Experience of leading or supporting tendering procedures and compiling tender proposals.
15. Excellent written and verbal communication skills (English).

What Coftec has to offer:

- The opportunity to join an ambitious and growing organisation.
- Travel opportunities throughout Ireland, UK and Internationally
- 23 days annual leave plus bank holidays.
- Competitive base salary with annual salary reviews.
- Pension after 2 years of service.
- Hybrid working available
- Company vehicle
